**ORDER SETTING CASE
MANAGEMENT CONFERENCE**

A case management conference is scheduled for December 8, 2015. The Court is not inclined to stay these cases beyond that date, even if there is yet another continuance of the state court trial. Accordingly, in their case management statement, which should be filed seven days before the conference, the parties should operate under the assumption that the stay will be lifted and propose a plan for how to proceed.

IT IS SO ORDERED.

Dated: June 24, 2015
